list-style-image:url(bild.gif)

Liste horizontal ausrichten

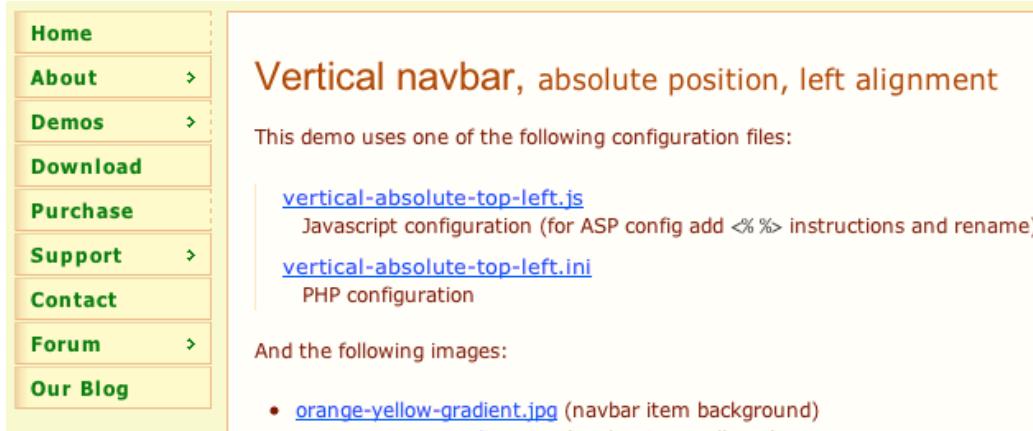

mit

display : inline

Horizontale / vertikale Navigation mit Listen gestalten

z.B.

<http://de.selfhtml.org/css/layouts/navigationsleisten.htm>
<http://www.udm4.com/menu/demos/>

The screenshot shows a vertical navigation menu on the left side of a page. The menu items are: Home, About >, Demos >, Download, Purchase, Support >, Contact, Forum >, and Our Blog. The 'About', 'Demos', 'Support', and 'Forum' items have a small triangle icon to their right, indicating they have sub-menu items. The background of the menu items is orange-yellow with a gradient effect. To the right of the menu, the page content starts with the heading 'Vertical navbar, absolute position, left alignment' in orange text. Below it, there is a note about configuration files and a list of files used.

Vertical navbar, absolute position, left alignment

This demo uses one of the following configuration files:

- [vertical-absolute-top-left.js](#)
Javascript configuration (for ASP config add <% %> instructions and rename)
- [vertical-absolute-top-left.ini](#)
PHP configuration

And the following images:

- [orange-yellow-gradient.jpg](#) (navbar item background)

The screenshot shows a horizontal navigation bar at the top of a page. The menu items are: Home, About ▾, Demos ▾, Download, Purchase, Support ▾, Contact, Forum ▾, and Our Blog. The 'About', 'Demos', 'Support', and 'Forum' items have a small triangle icon to their right, indicating they have sub-menu items. The background of the menu items is orange-yellow with a gradient effect. To the right of the menu, the page content starts with the heading 'Horizontal navbar, absolute position, left alignment' in orange text. Below it, there is a note about configuration files and a list of files used.

Horizontal navbar, absolute position, left alignment

This demo uses one of the following configuration files:

- [horizontal-absolute-top-left.js](#)
Javascript configuration (for ASP config add <% %> instructions and rename)
- [horizontal-absolute-top-left.ini](#)
PHP configuration
